[unclear]

[unclear]

Continued from Vol. 27, p. 100.

1st Nov. 1794. A beautiful day, with
night, with a light breeze from the
S. & followed by a shower of rain in the evening.
In forenoon we went to the garden.

Korean, Chinese, & other plants, & a few
I believe to be new to me. In the afternoon it

flew away. I saw a few more of the same
on flower of *Camellia*. In the evening I was settled
under the *Camellia* tree.

2nd Nov. Hill day & drizzle, till about 10 o'clock, when
wind opened the day. In the afternoon I had
reached & the afternoon day I went into the
back garden, about 2 P.M. I saw a few
fly across & toward the hill. A few flew up to
20 feet over my head. I saw a few of the same
colour & long, all flattened. I saw a few of the same
a House Martin. Spent the rest of the day in
the plot just W. of the greenhouse, & in the
north of the *Betula* row, but the weather was
disturbed.

3rd Nov. A fine day, with a light breeze from the
S. & followed by a shower of rain in the evening.
In forenoon we went to the garden.

4th Nov. A fine day, with a light breeze from the
S. & followed by a shower of rain in the evening.
In forenoon we went to the garden.

11th Nov. A fine day, with a light breeze from the
S. & followed by a shower of rain in the evening.
In forenoon we went to the garden.

12th Nov. A fine day, with a light breeze from the
S. & followed by a shower of rain in the evening.
In forenoon we went to the garden.

Abstract

—

1

11

1

19th Dec 59 Very mild, still wind and rain. After a very quiet night, the rain started at 10 AM. SE wind, but no rain till 11 AM. Still rain & breeze, but no sun. The rain was a relief after the dry weather.

The Tyler River - Lewis

20th Dec Very hot, sunny day. The rain stopped at 10 AM. The sun came out and it was very hot. The wind was light. The rain was a relief after the dry weather.

21st Dec Very cold, SE wind, but no rain. The rain was a relief after the dry weather.

22nd Dec Rain commenced at 10 AM. The rain was a relief after the dry weather. The SE wind was strong, with a drop in glass. The rain was a relief after the dry weather.

23rd Dec After a day of rain, a cold night. The rain was a relief after the dry weather. The SE wind was strong, with a drop in glass. The rain was a relief after the dry weather.

24th Dec Quite a nice, cold, sunny day.

25th Dec Mild but after a cold dry night. The rain was a relief after the dry weather. The SE wind was strong, with a drop in glass. The rain was a relief after the dry weather.

26th Dec Mild but after a cold dry night. The rain was a relief after the dry weather. The SE wind was strong, with a drop in glass. The rain was a relief after the dry weather.

8 23rd Jan. After another wet night, rain & strong S.W. wind (mainly light & south); cloudy in afternoon. Not much snow. One Snowdrop & one Lesser belladine in flower. The latter at foot of the hem in front garden. Many Snowdrops, & several yellow crocuses almost out & buds showing on Saxifraga oppositifolia & oppositifolia.

28th Jan 1950. A very cold day.
In the morning I went to the bank
to see the water level. It was
up to the top of the bank.
The water was very cold.
The wind was very strong.

29th Jan. After a frost in the morning
it was a very cold day. The wind
was very strong. In the afternoon
it was a bit warmer. The wind
was still strong. The water was
very cold.

30th Jan. Heavy rain. The wind was
very strong. In the afternoon
it was a bit warmer. The wind
was still strong. The water was
very cold.

31st Jan. After a heavy rain in the night
it was a very cold day. The wind
was very strong. In the afternoon
it was a bit warmer. The wind
was still strong. The water was
very cold.

1st Feb. A very cold day.
In the morning I went to the bank
to see the water level. It was
up to the top of the bank.
The water was very cold.
The wind was very strong.

2nd Feb. After a frost in the morning
it was a very cold day. The wind
was very strong. In the afternoon
it was a bit warmer. The wind
was still strong. The water was
very cold.

3rd Feb. Heavy rain. The wind was
very strong. In the afternoon
it was a bit warmer. The wind
was still strong. The water was
very cold.

 8th March. A fine day, with a light breeze from the west. The snow on the hills is melting, and the water in the lakes is beginning to run. The first flowers are beginning to appear.

A.S.*

Dear Stelfox,

Your specimen arrived safely and I have carefully examined it. I think it must be an aberrant specimen of melanocera. I have seen other examples of this species with swollen temples and I am sorry not to have allowed for this in my revision. The distribution of hairs on tergite (2+3) is as in melanocera not vaenia. I notice there is a trace of rugosity at base of t.(2+3) but I find this occasionally in specimens that I have called melanocera.

I will try to get your other box back to you before the end of the month.

Yours sincerely,

*Dacnusa
melanocera
Nixon (non Thomson)
file Griffiths
G.S.G. Nixon*

17th June 1960. Left Drogheda at 10.5 A.M. & travelling via Letterkenny, Loughaderry & Dungiven had lunch near head of Glenshane Pass, Co. Derry, about 1 P.M. Then resumed journey via. Maghera, Randalstown, Antrim, Lishburn & Ballynahinch reached Newcastle & home at 4.15 P.M. Did not collect anything during journey.

Found 2 packets of Fred's icks waiting for me from E. S. A. Boyne

For detail see Diary under date of 20th June 1960 & his letter dated 2nd 15th VI '60.
